Profile

I'm a graphic designer based in Brisbane, Australia. I specialise in digital design. I am fascinating with the idea of generating concepts and materialise products that can have positive impact in people. My goal is to create designs to provide solutions, I'm currently studying a diploma in UX design focused on research and technology. And Cambridge preparation course. I am open to learning more every day and thus improving my abilities.

Experience

NMC Publicidad e Impresos
Graphic Designer / Apr-Dec 2021

Designed and created promotional materials for clients across various industries. Additionally, I created all supporting graphic materials needed to complete each project, ensuring cohesive and visually impactful designs.

Freelance Designer
SINGEP - Conardicon - Lupines Foundation / Aug 2019 Feb 2020

Provided freelance web and graphic design services for clients from different sectors. Managed the full design process from concept to delivery, including layout, web structure, and graphic asset production.

Nómada Studio
Web Designer / Jan-Nov 2019

Designed, structured, and developed websites for companies across various industries. Also produced all necessary graphic assets to support successful project completion and visual consistency.

Gobernación del Meta
Intern - Graphic Designer / May-Jul 2018

Created promotional materials for events organized by the Social Secretariat – Youth Management Department. Designed the department's website and developed graphic and photographic assets, animations, and other multimedia content to enhance event communication.

Notes

I am an international student currently based in Australia, looking forward to returning to the workforce in the field of graphic design.

I am eager to continue growing professionally, enhance my skills, and contribute my best work to support the success of the agency. I would be truly happy to be part of your team, learn from you, and contribute to your creative projects while advancing in my own career.
